Dear Georges River College community members

I write to provide an update regarding the transition phase about changes to educational offerings at Georges River College.

After an extensive community survey and approval by the Geographical Names Board of NSW, I am pleased to announce that the Hon. Prue Car, Deputy Premier, has confirmed name changes for the current Georges River College, Hurstville Boys Campus and Georges River College, Penshurst Girls Campus. These schools will now be known as Georges River College, Hurstville Campus and Georges River College, Penshurst Campus, respectively.

The names of the other two campuses, Georges River College, Peakhurst Campus and Georges River College, Oatley Senior Campus remain unchanged.

This approval by the Deputy Premier marks another milestone in the transition process which continues positively.

Yesterday, 240 staff at the four Georges River College campuses spent a productive day of professional learning on topics related to collective efficacy and collaboration at its best in a fully co-educational college and how best to ensure comprehensive educational opportunities for boys and girls in 2024 and beyond.

Yours sincerely

Ms Joanna French  
Director, Educational Leadership, Georges River Principals Network
