

# Emerging Man

**A RITE OF PASSAGE CAMP FOR BOYS AND THEIR FATHERS**

*Helping your boy create his own best version of a Great Man.*

*A rite of passage is a significant event that marks the transition from one stage of life to the next, it is a Hero's Journey. Growing from Boy to Man is the most heroic journey a man will ever make.*

At adolescence boys go through many physical, psychological and social changes and this phase can be a challenging and confusing time. There are distinct differences between “boy psychology” and “man psychology”, but the shift from Boy to Man does not happen automatically. **Emerging Man** is a contemporary Rite of Passage providing boys with a safe and positive transition guided by a community of elders and mentors within a structured training, ceremony and celebration.

**Emerging man aims to:**

- Build confident, resilient and self aware young men
- Improve father/son relationships
- Nurture your boy's unique gifts and talents
- Increase self esteem
- learn and be inspired by the stories and wisdom of their elders and peers
- Create respectful, responsible and positively contributing young men
- Safely guide boys to understand and let go of boyhood to become great young men.
- Provide boys and men with a fun, adventurous and challenging weekend within nature

**Who is this for?**
